# LAPLAND UNDER THE NORTHERN LIGHT

**An ideal trip in complete safety to enter for the first time in the Arctic.**

This trip is ideal for anyone, no matter her or his age or physical condition, to discover the winter Arctic in all its fullness. Six days full of nature, adventure, magic and... luck!

... Or at least, it is what think Japanese people. According to them, the person who watch an Aurora Borealis will be lucky all her or his life. Whereas, Lappishs people believe that the "Northern Lights" is the trail left by a fox that crosses the sky with its tail on fire. And to see the sky "on fire", for example in the middle of a frozen lake surrounded by thousands of snowy pine trees is a vision that one can never forget...

But not only is nature what Lapland offers. We also will enjoy many different and varied activities on the snow. Riding a snowmobile through forests full of snow, going at full speed in a husky dogsled, sailing on an icebrearker boat breaking the "ice" on the Baltic Sea. While we are on the route the most daring people are able to dive into the cold waters of the sea safely with a waterproof thermal suit.

The end of the trip is full of Lappish magic. We will stroll in a sleigh pulled by reindeer and we will visit Santa Claus Village, located in the very Arctic Circle. Sure "Joulupukin will be happy to welcome us in his home. Why do not take advantage to ask him for sending a letter our beloved ones? So they will received it next Christmas ...
